

Memo

TO: City Council
FROM: Robert Clark, City Manager
DATE: April 10, 2015
SUBJECT: Weekly Update

Computer Problems

Early Thursday we had a malfunction of the controller that operates in conjunction with our server and backup servers. We lost all access to files and e-mail. Later Thursday afternoon e-mail service was restored, and early afternoon on Friday we gained access our files. It appears that the loss of data was minimal. Between that, several staff members being off for spring break, and having several agendas due at once it was a quite challenge for everyone. Special thanks to IT Specialist James Hahn for getting us up and running again and everyone else that was here for extra efforts getting agendas and other items back on track

Complete Streets Master Plan

The drop in workshops on complete streets projects on Tuesday, Wednesday and Thursday were extended to 7pm to allow residents who are working during the day to attend. The workshops will be held at the Woman's Center, 441 E. Ojai Ave., from 2 to 7. Residents may come at their convenience during these times to participate, watch or comment.

Upcoming Agendas

The tentative upcoming agendas are listed below. (The white paper on cultural resources has been held over to the April 28 meeting to provide more time for review of the preliminary draft.)
